

Technical specifications Single Moulds

This single mould has 'protected-perforation'. The perforation is protected against damages and the special pattern also strengthens the construction. Beside that a sheet thickness of 15 mm is used. The perforation channels are rather short: only 3 mm. For cleaning purposes this is ideal, the chance of blocked perforation becomes negligible.

Ø PRESSED	APPROXIMATE WEIGHT
118x118	1 KG
132x132	1,5 KG
202x202	4 KG
210x210	4 KG
251x251	7 KG
261 x 261	7,5 KG
270x270	8 KG
300x300	10 KG
